## ANARCHISTS ARRIVING

Fourteen Have Landed in New York and Are Being Closely Watched.

## PRESIDENT'S DANGER

Lots Were Drawn in Naples for the Assassination of the President—Conspirators Sailed From Different Points.

New York, Aug. 18.—The Evening World prints the following relative to the news received from Washington Friday of the detention at the barge office of this city by secret service agents of Notabe Maresca and Michil Weida, supposed anarchists, who arrived Friday on the Kaiser William II. These two men, it is understood, have come to this country as conspirators, whose object was the assassination of President McKinley. The Evening World says:

"Instead of two, high government officials informed the Evening World there were 14 anarchists under arrest at the detention prison of the bureau of immigration. They are all charged with being in a conspiracy to assassinate President McKinley and have been taken singly and in pairs from the incoming ocean liners within the last 10 days. United States secret service agents learn that an anarchist circle in Naples had cast lots to see who would be the assassin. Eleven Italians and Austrians were selected. Closely followed they sailed for different ports. Their object was to strike individual blows at the president at the same time. That would make sure of success.

As fast as the men arrived secret service agents, disguised as emigrants, went among them and they were arrested. Maresca and Weida caught Friday were two of the 14. The conspiracy was made out one night early in August. By working with the Italian police the secret service agents got wind of the great meeting of circles in Naples. The men selected for the work in this country were quickly notified what they were to do, separated, going singly or in pairs to different ports in Europe. Some went to France, others to Germany, while still others crossed the channel to England. Step by step they were followed to the gangplank of the steamers.

Fourteen are now detained by the emigration authorities and are either at the barge office, at the battery or the detention quarters at quarantine. One report is to the effect that some are in the Ludlow street jail, having been taken there from Ellis island in order to thwart any attempt to rescue them by the Paterson anarchists."

## JAPANESE ACCOUNT.

The Allies Attacked Pekin With Artillery and Blew Open Three Gates.

Tokio, Aug. 13.—General Yamaguchi wire from Pekin under date of Aug. 16, as follows: "Allies attacked Pekin early yesterday, opening with artillery on the eastern side. The wall was obstinately held by the enemy. Japanese and Russians were on the northward of the Tung Chow canal. The Americans and British were on the south side. At nightfall the Japanese blew up the two eastern gates of the Tartar city and entered. In the meantime the Americans and the British entered the Chinese city by the Tung Pien gates. Detachments of each force were sent towards the legations. Parties met near the legations and opened communications. All the ministers and their staffs were found safe. Japanese loss over 100 killed, including three officers. Losses of allies have not been ascertained. Four hundred Chinese killed."

## Situation Unchanged.

Jessup, Ga., Aug. 18.—Reports from that portion of Liberty county where the negroes and white people have been at arms for several days defying each other, show the situation to be unchanged. The Liberty guards, a cavalry company called out by Governor Candler to protect life and property of Liberty City, together with a large force of armed citizens patrol the south and surrounding country. The negroes are said to be in large numbers in the swamp a short distance away. Neither side are showing any belligerent activity and no more trouble may arise if the sheriff succeeds in capturing the negro leaders, but the danger is not considered over.

## Report Confirmed.

Washington, Aug. 18.—A dispatch from Consul General Goodnow at Shanghai has been received at the state department confirming the previous reports of the entrance of the allied armies into Pekin and the safety of the legations.

## Minister Wounded.

Vienna, Aug. 18.—The Austrian foreign office has received a dispatch announcing that the Austrian acting minister at Pekin, Dr. Von Bosthorn, is

slightly wounded.

## Hung for Murder.

## Found Dead.

Troy, Texas, Aug. 18.—Robert Graham was found dead in bed at Durango, Falls county. It is supposed to have been due to heart failure.

## THE POWERS TRIAL.

The Prosecution Are Presenting Their Side of the Case to the Jury.

Georgetown, Ky., Aug. 18.—The last day of the Powers trial found the court-house more densely packed than ever, while hundreds of others applied for admission and were turned away. Commonwealth's Attorney Franklin, who closed the case for the state, began the final argument in the case at 9:30 o'clock. He promised in advance not to deal in personal vilification and abuse which had characterized the speeches of some of the attorneys. During the presentation of the case by Franklin, Powers sat as usual with his counsel and his face did not once change color as the attorney went through the evidence and held up to the jury the most important points against the defendant.

Powers was faultlessly dressed in light clothes and was intent listener to every word of the speaker. Just behind him sat Mrs. Henry Youtsey, wife of one of the alleged coconspirators. Arthur Goebel occupied a seat with the prosecution and Senator Harbison, successor to Goebel in the senate, and his law partner, sat in rear of him.

The argument in the Powers case was concluded at 11:30 this morning. Judge Cantrill adjourned court till 1 o'clock, when the case was given formally into the hands of the jury.

## Boers Turn on British.

## Colonel Hoare's Loss.

London, Aug. 18.—General Roberts reports that Colonel Hoare, who was besieged at Elands river and has just been relieved by Kitchener, lost 12 men killed and 58 wounded, including Lieutenant Colonel DeLisle.

## Investigation Finished.

Washington, Aug. 18.—Archbishop Chappelle the apostolic delegate to the Philippines, has written to one of the pastors here that his investigation of the church affairs there was about ended and he expects to make his personal report to the pope early in November. It is not stated, however, whether his views on the retention of the ecclesiastical property by the local friars coincide with those of Dr. Nozoleda, archbishop of Manila, who is outspoken in their favor. For some time past there have been rumors that Dr. Chappelle was strongly in favor of the friars, but nothing definite on the subject will be known until he acquaints Pope Leo with the result of his observations. Dr. Chappelle will not return to his see before next spring, as he intends to spend the winter in France.

Sturgis of the University of Michigan was selected to fill the chair of Greek and Latin temporarily made vacant by the absence in Rome of Joseph F. Paxton. Prof. Paxton was given a 1-year leave of absence to take a special course in archaeology.

A fakir has been working his game on the Hempstead people selling from house to house a salve to cure warts. All sensible men know that the only way to cure a wart is to rub it with a raw potato which is afterwards to be buried by a cross eyed negro in the northwest corner of the graveyard at midnight during the dark of the moon. As the potato decays the wart will disappear. The wart salve put up in boxes is a delusion and a snare.—Hempstead Herald.

Marlin is also enjoying a building boom as the result of the coming of the new railroad.

The estimate of the Chinese as a fighting power appears to have been greatly magnified during the absence of authentic news from the interior.

Up to date the Filipino war has cost the United States 2394 dead 2073 wounded, not to mention \$186,678,000 in coin of the realm of McKinley. As a trade proposition there is not a sane business man in the country who would prosecute the experiment a day longer.—Galveston Tribune.

The high price of cotton and the poverty in India and the war in China, two of the great markets for cotton goods, are given as reasons for the shutting down of cotton mills in England and America. There will be plenty of spinners left to handle the crop and good prices will likely prevail.

The man who tries to build up his business before he begins to advertise is like the boy who tried to learn to swim before he went into the water. Advertising could be used to float many an old mercantile hull off the rocks of lost prestige and decreasing or standstill business if the proprietor could be made to believe the evidence before his eyes. Whenever a business man begins to look at advertising as much a necessary and legitimate expense as insurance or clerk hire he will begin to profit by it.

## PEKIN SURRENDERED.

The Allies Captured the City With Very Strong Opposition.

## JAPANESE IN LEAD.

The Allies Entered by the East Gate and Rescued the Ministers—The Japanese Lost 100, and Chinese Lost 300.

Washington, Aug. 16.—The allied armies have captured and entered Pekin in the face of obstinate resistance and the members of the foreign legations are safe. Official confirmation of the fall of the Chinese capital came to the United States government Friday night in the shape of two cablegrams, one from Admiral Remy and the other from Consul Fowler at Che Foo.

The following dispatch was received from Admiral Remy:

"Taku, Aug. 18.—Bureau of navigation, Washington: Just received a telegram from Tien Tsin dated Aug. 16, 10 p. m. Pekin was captured on Aug. 15. Foreign legations are safe. Details follow shortly."

Consul Fowler sent the following:

"Che Foo, Aug. 17.—(Received Aug. 17.)—Secretary of State, Washington: Japanese admiral reports the allies attacked Pekin east Aug. 15. Obstinate resistance. In the evening Japanese entered the capital with the other forces. Immediately surrounded the legations. Inmates are safe. Japanese loss over 100, Chinese 300."

Previous information which has been received here show that the allied army took possession on Aug. 12, of Tung Chow, 12 miles from Pekin. After a halt of three days for rest and preparation, the army attacked the capital.

The officials here knew the stronghold of the boxers was in the Chinese city and if the allies were to attempt to force their way through it into the Tartar city, in which the legation compounds are located, might mean a great loss of life and possibly defeat.

It was also known that the imperial troops which have sided with the boxers were, many of them in or near the Chinese city and that much of the artillery and rifle fire which had been poured into the legations has been from the wall separating the two cities. These facts evidently were communicated to Gen. Chaffee and the other commanders of the allies.

Realizing this obstacles, it appears the allies decided to attack the city by the east gate. There are four entrances to the city on the east, two leading to the Chinese city and two to the Tartar city.

Just which one of these was selected as the attacking point Consul Fowler's dispatch does not disclose. Contrary to the press reports Friday, Consul Fowler's

dispatch shows that the attack on the city met with strong resistance. The Japanese force engaged with the advance numbered 10,000.

## CHINESE FLED.

The High Officials Left Pekin for Hsiang Fu With Treasures.

London, Aug. 18.—"Pekin was relieved on the night of the 15th."

This message was received Friday evening at the imperial customs office in Che Foo.

The Morning Post assumes that the United States is willing to abandon the idea of further aggressive action, but it questions the disposition of Germany and the other powers to agree to such a course.

The Daily Graphic in a paragraph apparently inspired says there is no reason to believe that any of the powers will repudiate the previous understanding to respect the integrity of the empire and dynasty, adding that the proposal to land a British force at Shanghai originated not with the British government but with the Chinese.

"This," says the Daily Graphic, "disposes of the story that the viceroy of Nankin changed his mind under the influence of the consuls. Her majesty's government, we believe, has no intention of questioning the right of France or the United States to land troops if either should think it necessary."

Shanghai dispatches say that Emperor Kwang Su accompanied the empress dowager to Hsiang Fu much against his will. Prince Tuan commanded the rear guards of the imperial escort of which boxers formed 65 per cent. It was expected that Gen. Siang would follow after the arrival of the allies. All the palace treasures were sent to Hsiang Fu.

## RIOT IN GEORGIA.

Negroes Resist Arrest for Murder and Set Fire to Two Towns.

Atlanta, Aug. 17.—Gov. Candler Friday upon advices received from the deputy sheriff of Liberty county, this state, ordered out the Liberty troop, a cavalry company of the Georgia militia, to assist Sheriff Brewer, of that county in quelling a riot now said to be assuming serious proportions at Johnston Station, 50 miles from Savannah, between the whites and the blacks.

The following is the message received by Gov. Candler from Deputy Sheriff Hendry:

"Negroes who murdered R. H. Curtis are being joined in the woods by other negroes. Liberty City was fired in the center of the town Thursday night at 12 o'clock. Lambert was fired at the same time. The Savannah, Florida and Western railway is being torn up between the two towns to wreck the train on which are Sheriff Brewer and a part of a posse. One man was taken from a guard yesterday. One man killed while resisting arrest. People much excited and trouble expected."

"Can't control mob at all and everything is getting more and more wrought up hourly."

The negroes in Liberty county have been troublesome for several weeks and in the last few days a number of arrests have been made. Curtis, the man who was killed, was well known in the community. He had some trouble with negroes several days ago. The negroes fled to the woods, where they have been in hiding.

One of the negroes implicated in the murder was arrested Thursday and while resisting was killed. Another was taken from the guard and is supposed to have been murdered.

It is not known whether the damage was done by the fire started Thursday night by the negroes. It is the opinion of the governor that as soon as the Liberty guards arrive on the scene as an armed body that the trouble will end. The company numbers 80 men.

In the vicinity of Georgia the negroes are three to one compared in numbers to the white people.

Late Friday night as a result of race disturbances a determined effort was made to wreck a Plant system passenger train at Aimars Mill, where the negro, Small, one of those said to have taken part in the murder of Curtis, was killed.

The switch lock was broken and cross ties were placed on the track, but arrival of a freight train ahead of the passenger prevented the wrecking of the passenger. Three miles of wire along the line of the Plant system have been cut. During the night several negroes were taken from their houses and severely whipped.

Two negroes have been arrested, suspected of attempting to wreck the Plant system train.

So far there has been no actual clash between the negroes and the armed guard, but it expected momentarily. Several other fires are reported from various parts of the county. Liberty county's negro population is nearly double that of the whites.

### Optimistic Old Sage.

Russell Sage is quoted as having said recently that the time is near when America will take her place at the head of the financial nations of the world. "It is something new in financing to float British bonds here," he continued, "but we have so much faith in the credit of the mother nation that there is almost no limit to the money she could borrow in this land. Next to our own bonds, in which I am a great believer, I would have no hesitancy in accepting those issued by the British government. All we could get of the British bond issue was 6 per cent of the \$50,000,000 subscribed for. Now those bonds are selling today at a premium of 2 1/2 per cent."

### Why He Remembered Her.

She was a Washington woman well acquainted in diplomatic circles, says a correspondent of the New York Times. Talking about Washington people one day, someone asked her: "Do you know Senator Blank?"

"Do I know Senator Blank?" she repeated. "Yes, I do know him, and he knows me; he will never forget me. I've trumped his ace when we were partners at whist."

### Some Big Hunters.

New York has some of the famous hunters of the world. Mr. Charles Ranlett Flint has killed the biggest game in both of the Western hemispheres, North and South America. Mr. Edward R. Ladew, the millionaire leather merchant, former partner of old Fayerweather, has ridden the crocodiles of the Nile, Victor Smith asserts, stripped the stripes from the tiger of the Tugela, shot the lion of the Llano, potted the rhinoceros of the Ringho, mowed down the proud bull moose of the Massif, bearded in his snowy den the musk ox of Manitoba, slaughtered the peccaries of Patagonia and taught the gorilla of Ghambesi the art of gnashing his teeth. The Rev. Dr. William S. Rainsford, of St. George's church, has in his study ample evidence of his prowess as a hunter of big game, the walls being decorated with antlers of the royal elk and claws and teeth of the pugnacious grizzly.

### Police Protection From Surprisers.

A man appeared at police headquarters in a Pennsylvania city the other day, and requested the services of some officer. Thinking a murder or some kindred crime had been committed, the chief had summoned one of his best men before the real import of the man's request was made manifest. Instead of being a killing affray, the man wanted protection from the onslaught of a proposed surprise party which was to be given to his niece that night. He said he hated such things, and would not have them, even if his wife and niece did want them. He did not wish to be guilty of assault and battery or possibly worse, hence his request for police protection. A roundsman was sent to guard the premises, and, though the guests arrived, they were not allowed to enter the house, so the surprise party did not come off.

### SOUTHERN PROGRESS.

**Exports From the South Show an Enormous Increase the Last Year.**

Baltimore, Aug. 18.—In the summing up of this country's commerce of the fiscal year the exhibit made by southern ports is gratifying to everybody interested in the trade development of the cities on the south Atlantic and Gulf coasts. The points of the exhibit particularly noted by the Manufacturers' Record are:

"More than one-third, or definitely, 34.6 per cent of the outward commerce of the year passed through southern ports.

"Nearly, if not quite, one-third of the material exported originated in the south.

The percentage of gain in exports at all southern ports was above the percentage of gain for all ports.

"The gain in exports at southern ports was 43.7 of the total gain at all ports.

"Of the 83 ports included in this year's summary only 28 show decreases in exports compared with the figures of 1899. Of these, but nine are southern ports, three of them being on the gulf. There are decreases at seven North Atlantic ports, three Pacific and nine interior and lake ports.

"The 21 north Atlantic ports increased their exports from \$667,928,573 to \$733,360,675, or \$65,432,102; the 25 southern ports from \$311,517,908 to \$484,643,577, or \$73,125,669; the 9 Pacific ports from \$57,721,955 to \$71,871,369, or \$14,159,114, and all other ports from \$89,854,866 to \$104,310,750, or \$14,455,884—a total increase in the country from \$1,227,023,302 to \$1,394,186,371, or \$167,153,069. It is notable that while the bulk of the increase at north Atlantic ports was due in great measure to increase of about \$50,000,000 at one port, New York, the increase at southern ports was more generally distributed. It was \$27,865,487 at New Orleans, the total of that port exceeding that at Boston by more than \$2,000,000 and that at Baltimore by more than \$300,000, \$14,222,409 at Savannah, \$8,374,138 at Baltimore, \$7,180,842 at Galveston, \$6,580,506 at Newport News, \$4,523,232 at Saluria, \$4,304,215 at Mobile and \$3,388,985 at Wilmington. The great gain on the Pacific coast was due to the increasing of more than \$10,000,000 at San Francisco.

These figures indicate the trend of foreign trade as affected by the internal conditions of the country during the past two years and the developments of its newer foreign relations. They show the increasing tendency of goods to move through southern ports—goods from many parts of the country. At present the greater portion of the exports in that direction originate in the south.

The exports of goods practically southern, and only southern, in origin during the year were \$241,832,737 raw cotton, \$14,127,538 cotton oil, \$12,474,194 naval stores, \$11,229,188 cottonseed cake and meal and \$6,836,367 crude phosphates.

The south also supplied exports common to the whole country to about the following extent, according to a fair estimate: \$30,000,000 mineral oil, \$30,000,000 tobacco, \$18,500,000 timber and lumber, \$2,000,000 cotton goods, \$11,000,000 live stock, \$8,500,000 coal and \$5,000,000 pig iron. With these must be reckoned the contributions of the south in raw material and manufactured stuffs of wood, iron, steel, grain, flour, hides, leather, fruit and provisions of one kind and another, reaching probably \$50,000,000 in value. The total of the south's contributions is thus seen to be at least \$450,000,000.

## PURPOSES ACHIEVED.

The Ministers and Legationers Are Rescued From Pekin.

## TROOPS TO REMAIN.

The United States Will Adhere to Its Purposes in China As Laid Down by Secretary Hay's Note to Chinese Government.

Washington, Aug. 18. — With the armies at Pekin and the legationers rescued, it can be stated that the American administration considers that one of its most essential purposes has been achieved, and it now remains only to carry out with unwavering fidelity the purposes already clearly defined by this government. Although these purposes were made known some weeks ago in Secretary Hay's note of July, they now assume special importance in the light of the work to be taken up. Four distinct purposes were laid down in this declaration, viz:

"The purpose of the president is, as heretofore, to act concurrently with the other powers, first in opening up communication with Pekin and rescuing the American officials, missionaries and other Americans who are in danger.

Secondly, in affording all possible protection everywhere in China to American life and property. Thirdly, in guarding and protecting all legitimate American interests, and fourthly, in aiding to prevent the spread of disorders to other provinces of the empire and a recurrence of such disasters.

It can be stated authoritatively that the foregoing declarations stand exactly as they did on the day they were enunciated. The government considers the first purposes enumerated, namely, "opening up of communications with Pekin and rescuing the American officials, missionaries and other Americans who are in danger," now achieved. There may be details of this rescue still to be carried out, but no doubt is entertained that the rescue will be accomplished.

That leaves three remaining purposes set forth still to be carried out, and these are chiefly in the line of restoring order, "quiet and security to the disturbed country."

The intention of this government as to the withdrawal of troops from China cannot be stated at this time and any statement bearing on this point is conjectural. The fact is, the military situation at Pekin is yet to be clearly developed by advices from those on the ground. What course is to be adopted concerning the troops will depend largely upon these advices and upon the exigencies of the situation.

It is stated that there can be no immediate withdrawal of troops that have been operating in China, at least to the extent of giving them an opportunity to rest and recuperate. Fresh forces will guard the line of communication between Pekin and the seacoast. Until information is received from Minister Conger and General Chaffee no definite steps will be taken in the negotiations for carrying out the purposes of this government in China. It will depend upon advices from these officials as to where and when such negotiations will take place.

### LONDON BEHIND.

The Americans Can Get News From China Quicker Than England.

London, Aug. 18.—While awaiting the details of the taking of Pekin the papers here again comment on the superior official intelligence of the authorities at Washington. The St. James Gazette says:

"Relief of legations may now be accepted without reservation."

The Westminster Gazette attributes the celerity of the American reports to fact that Americans are erecting field wires and have staff officers assigned for the express purpose of sending news.

The following dispatches have been received at the Russian war office in St. Petersburg from Admiral Alexieff:

"Port Arthur, Aug. 13.—General Fleischer, with a force of all arms, captured Hai Cheng Aug. 12, after three days of fighting. The Chinese lost 400 men and four guns. Five hundred Chinese retreated with eight guns."

### Indiana Arrived.

Washington, Aug. 18.—The following cablegram was received at the war department from Brigadier General Barry of General Chaffee's staff:

"Che Foo, Taku, Aug. 17.—Indiana transport arrived Aug. 16. All well, will go to the front. Pekin taken Aug. 15. Legations are safe."

Indiana carried a battalion of the Fifteenth infantry, which had been transhipped from the Sumner at Nagasaki.

### Japanese Entered First.

Shanghai, Aug. 18.—The general attack on Pekin began Aug. 15, in the morning. The enemy obstinately resisted. The same evening the Japanese demolished the Cham-Lang and Tong-Chi gate and entered the capital. The other armies entered by the Tong-Quien gate. They sent detachments at once to the legations where the ministers were found safe.

### Epidemic of Scarlet Fever.

Bridgeport, Tex., Aug. 18.—Scarlet fever seems to be epidemic a few miles south of town. One of the local physicians reports five cases in one family.
